I am really glad that I had the opportunity to study in a school in London, England. I met many friends who have added their contact information. I still chat with them in English. After I went to the UK, there are many customs and habits, including climate change and people. There is a big difference with Taiwan, of course there are good and bad, but not too bad. At home, my mother is very kind and tolerant to us. Although he always said that five boys can't be naughty, we still managed to let him Don't worry, at the beginning I felt that the 16-hour flight was not worth it. After I came back, I felt that I had returned with a full load. Apart from improving my English skills, I also dared to communicate with foreigners. This trip allowed me to learn a lot and added a lot of experience to the UK. I can go abroad and I would like to go to the UK once. It's really fun. Thank you to the school. Thank you to my parents. Thank you to the students who live with me. I am very happy to have you accompany me through this short 3-week study tour. Thank you!
