About this Course

This course uses four scenic locations in Taiwan as the main topics. Besides emphasis on teaching vocabulary, grammar, and text comprehension, each lesson's text will feature a non-human protagonist, retelling the past and present of each location. Starting from the north and heading south, each lesson combines the historical, cultural, and modern faces of these landmarks.

Using fun dialogue between characters, we will string together different stories about the lovely Taiwan one by one. Students interested in Chinese will be able to not only boost their language skills, but also learn about Taiwan's beauty and cultural life.
